

## Math 8

Our Goal: To review for the Unit 3 test

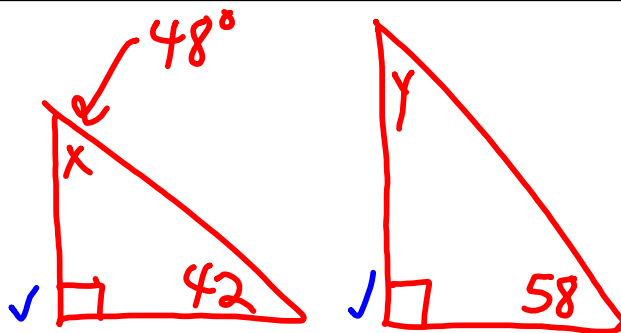

Warm Up: Please have your homework out for checking

Today's Homework

- 3.2-3.4 Practice handouts
- Chapter 3 Fair Game Review

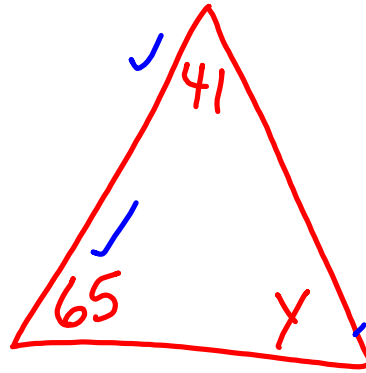

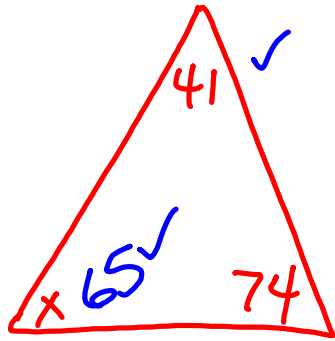

Previous Homework

- 3.3 Practice A handout
- 3.4 Practice A handout

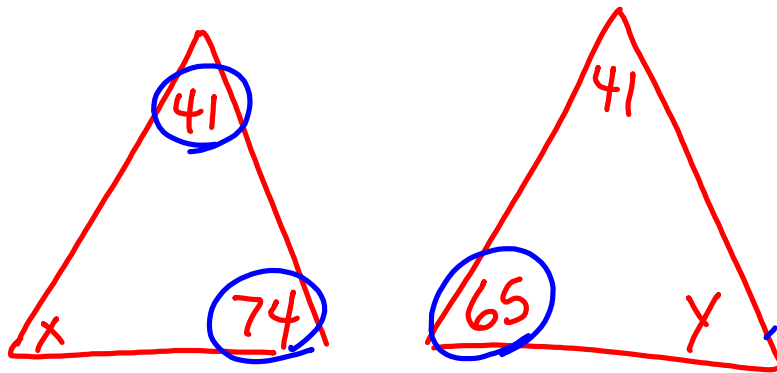

$$\begin{aligned}x &= 180 - 90 - 42 \\ &= 180 - 132 \\ &= 48\end{aligned}$$

$$48 + 58 + 90 \neq 180$$

$$\begin{aligned}x &= 180 - (74 + 41) \\ &= 180 - 115 \\ x &= 65\end{aligned}$$

$$41 + 74 + 65 = 180$$

$$x = 65$$
